

A Bill to Protect Our Children from Medical Experimentation

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF [STATE] HERE ASSEMBLED THAT:

1 **SECTION 1. SHORT TITLE**

2 This Act made be cited as the “The Save Our Children from Medical
3 Experimentation Act of [YEAR]”.

4 **SECTION 2. FINDINGS.**

5 The Legislature of the State of [STATE] finds as follows:

6 (1) The COVID-19 “vaccines” have not been through proper testing.

7 (a) The COVID-19 shots from Pfizer and Moderna do not meet the
8 legal definition of a vaccine.

9 (a) A preparation of a weakened or killed pathogen, such
10 as a bacterium or virus, or of a portion of the
11 pathogen’s structure, that is administered to prevent
12 or treat infection by the pathogen and that functions
13 by stimulating the production of an immune response.

14 (b) A preparation from the cowpox virus that protects
15 against smallpox when administered to an individual.

16 **The Free Legal Dictionary (<https://thefreedictionary.com>)**

17 (2) All COVID-19 “vaccines” currently available in the United States are
18 only licensed by the FDA under an emergency use authorization. (i.e.
19 these are still experimental treatments.)

20 (3) A Pfizer executive has admitted during testimony before a European
21 Union committee that the COVID-19 “vaccine” was never tested for
22 efficacy.

23 (4) The Centers for Disease Control and Prevention’s own data shows
24 that children have a 3% chance of being hospitalized by the virus, and
25 a statistically zero chance of death.

26 (5) The CDC’s childhood vaccination schedule is used by schools and
27 other children’s programs as a requirement for attendance and
28 participation.

1 (A) By coercing parents to have their child treated with the
2 COVID-19 “vaccine”, this process is a violation of
3 the Nuremberg Code, (a medical ethics code involving the use
4 of experimental treatments on human beings).

5 (a) The voluntary consent of the human subject is
6 absolutely essential. This means that the person
7 involved should have legal capacity to give consent;
8 should be so situated as to be able to exercise free
9 power of choice, without the intervention of any
10 element of force, fraud, deceit, duress, overreaching,
11 or other ulterior form of constraint or coercion; and
12 should have sufficient knowledge and comprehension
13 of the elements of the subject matter involved as to
14 enable him to make an understanding and enlightened
15 decision. This latter element requires that before the
16 acceptance of an affirmative decision by the
17 experimental subject there should be made known to
18 him the nature, duration, and purpose of the
19 experiment; the method and means by which it is to
20 be conducted; all inconveniences and hazards
21 reasonably to be expected; and the effects upon his
22 health or person which may possibly come from his
23 participation in the experiment.

24 **SECTION 3. PROHIBIT THE USE OF THE CDC’S IMMUNIZATION SCHEDULE**

25 (1) All State of [STATE] office holders, agencies, schools, and programs accepting
26 state money are prohibited from requiring the vaccination, immunization,
27 or inoculation of minors based on the CDC’s immunization schedule as a
28

1 requirement for enrollment, attendance, or participation in any class,
2 program, or event.

3 (2) No office holder, agency, school, or program receiving funding from this state
4 may contract with or accept any monies from any government or private
5 agency contingent on the use of the CDC's schedules for immunization.

6 (3) Any agency, school, or program receiving funding from this state who
7 requires the use of the CDC's schedules for immunization shall have all
8 funding immediately terminated. After the adoption of this legislation,
9 any monies received from the state while requiring a minor to follow the
10 CDC's immunization schedule must be returned to the state within 90
11 days of notification by the State Attorney General or his designee or face
12 criminal charges.

13 (4) Nothing in this legislation is to be construed as to prohibit parents from
14 having their children treated with these "vaccines".

15 **SECTION 3. PROHIBIT THE REQUIREMENT OF AN EMERGENCY USE AUTHORIZED**
16 **TREATMENT**

17 (1) All State of [STATE] office holders, agencies, schools, and companies or
18 programs accepting state monies are prohibited from requiring the use of
19 any product or procedure licensed by the Food and Drug Administration
20 (FDA) under an Emergency Use Authorization (EUA).

21 (2) Any office holder or employee of any agency, schools, program, or other
22 entity that accepts state monies that attempts to require the use of a
23 product or procedure licensed by the FDA under an Emergency Use
24 Authorization shall be removed from office. He or she shall also be fined
25 not more than \$500, imprisoned not more than 3 months, or both, per
26 incident.

27 (3) Any office holder or employee of any agency, schools, program, or other
28 entity that accepts state monies that coerces anyone to use a product

1 licensed by the Food and Drug Administration (FDA) under an Emergency Use
2 Authorization shall be liable in a competent state court for any and all
3 medical expenses that can be reasonably related to the use of said product,
4 any and all legal fees incurred by the person coerced, any and all court fees
5 incurred in litigating the case, plus reasonable damages as determined by a
6 jury in the State of [STATE].

7 **SECTION 4. ENFORCEMENT**

- 8 I. The Secretary of State is empowered to investigate complaints that this act was
9 violated, and enforce this act with all the legal powers delegated to
10 their office.

11 **SECTION 5.** This legislation will take effect on [DATE]. All laws in conflict with this
12 legislation are hereby declared null and void.
